EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Sean Wooden on September 23, 2009.

The application has been amended as follows:

Claims:

Claim 1 (currently amended): A method for routing and caching packets of data in a router in a multicast network, comprising:

- receiving a packet having a header section and a payload section;
- inspecting the payload section of the packet in a network core for use in determining how to route the packet to subscribers;
- selectively routing the packet based upon the inspecting; ~~and~~
- determining a channel corresponding to the packet;
- retrieving channel properties for the channel;
- determining, from the channel properties, whether the channel is a persistent channel; and
- if the channel is a persistent channel, locally caching data from the packet in a core routing node in the network core, wherein the core routing node is located upstream from an edge routing node in a direction moving away from a subscriber machine.
